

## PHP yang ditambah:

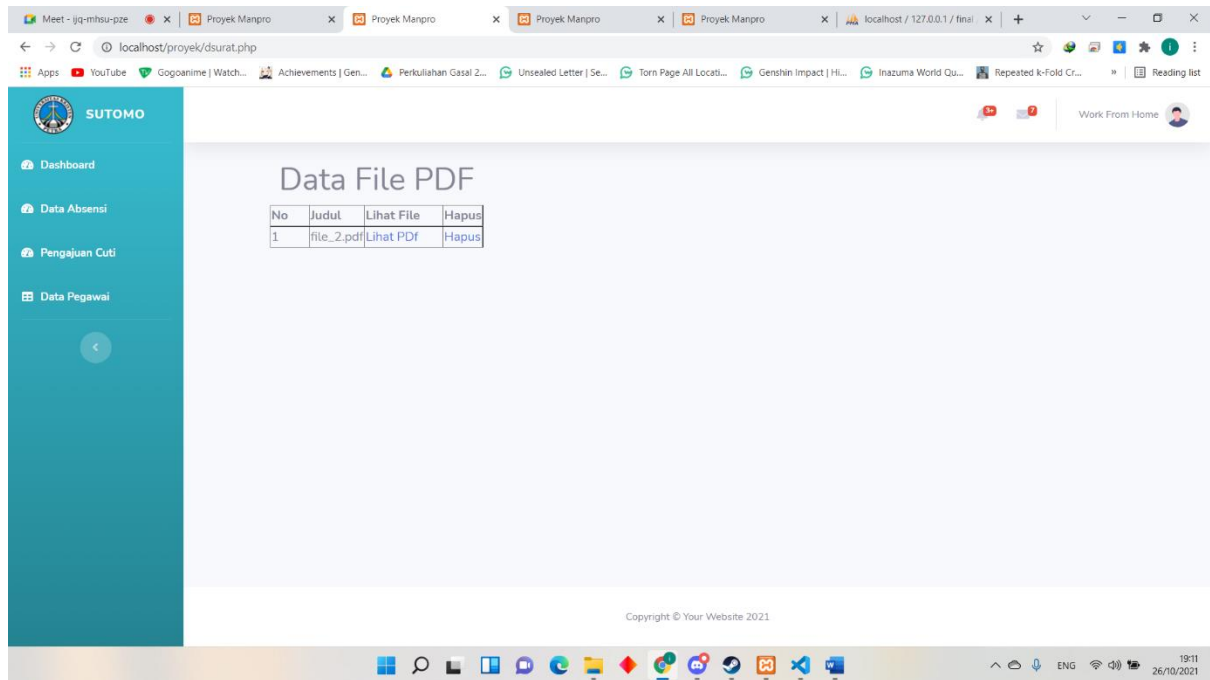

Izin.php (Untuk form cuti dan kirim file PDF)

Upload.php (untuk mengupload gambar)

Dsurat.php (untuk melihat table PDF yang bisa di view dan di hapus)

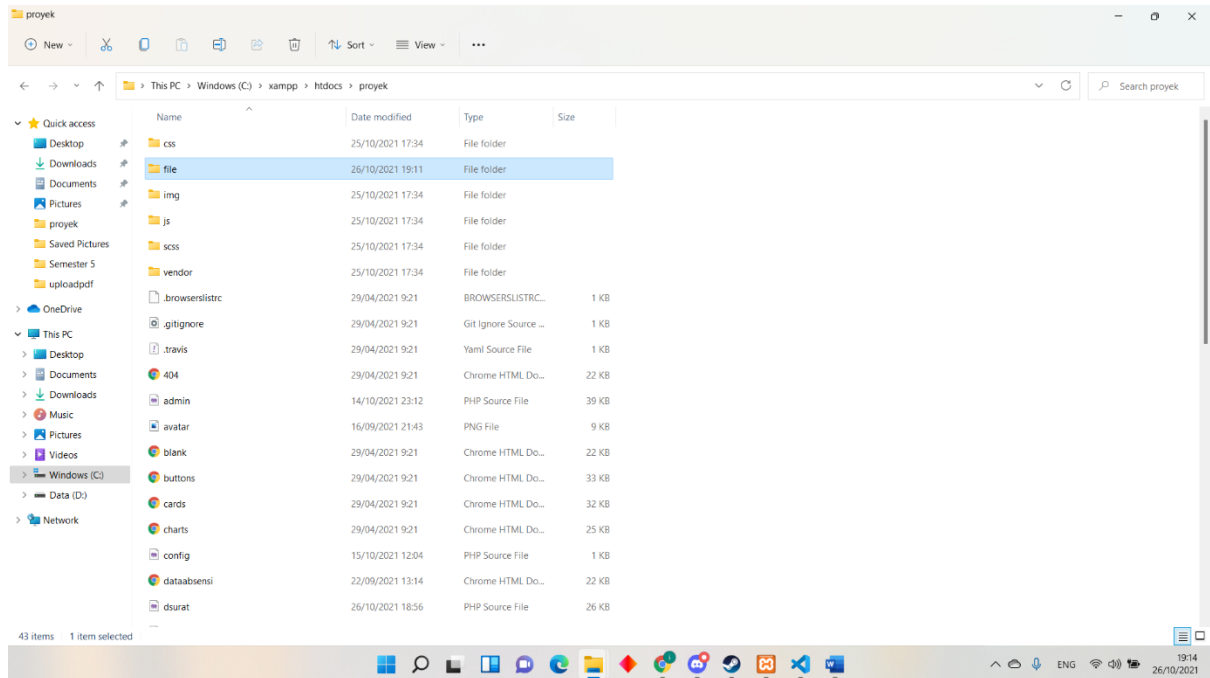

View.php (untuk melihat hasil PDF, dalam bentuk codingan)

Hapus.php (untuk menghapus PDF, dalam bentuk codingan)

Sizin.php (untuk mengupload form cuti dan kirim file PDF nya, dalam bentuk codingan)

## Folder yang ditambah:

Namanya file

Folder file gunanya untuk menyimpan file pdf yang telah diupload

# PHP yang diubah unit.php

Kiri yang lama(menggunakan proyek ver 5.0), kanan yang baru

```
1 <?php
2 include 'config.php';
3 session_start();
4 if (isset($_SESSION["user"])) {
5     if ($_SESSION["user"] != "unit") {
6         header("Location: login.php");
7     }
8 }
9 else {
10     header("Location: login.php");
11 }
12 $id = $_SESSION["id"];
13 $date = date("Y-m-d");
14 $sql = "SELECT * FROM absensi WHERE id_pegawai='$id' AND DATE(timestamp)='$date'";
15 $result = mysqli_query($conn, $sql);
16 if ($result->num_rows > 0) {
17     $row = mysqli_fetch_assoc($result);
18     $lat = $row['latitude'];
19     $long = $row['longitude'];
20     if ($lat == -7.2553631 and $long == 112.7494044) {
21         $type = "Work From Office";
22     }
23     else {
24         $type = "Work From Home";
25     }
26 }
27 mysqli_close($conn);
28 $timeout = 3600; // setting timeout dalam detik
29 $logout = "login.php"; // redirect halaman logout
30 if (isset($_SESSION["start_session"])){
31     $elapsed_time = time()-$_SESSION["start_session"];
32     if ($elapsed_time >= $timeout){
33         session_destroy();
34         echo "<script type='text/javascript'>alert('Sesi telah berakhir');window.location.href='";
35     }
36 }
```

Tambahan di line 3 dan line 14 – 22

```
738 <div class="card">
739     <div class="card-header py-3">
740         <h3 class="font-weight-bold">Unit.php
741     </div>
742     <div class="card-body">
743         <p>SB Admin 2 makes extensive use of Bootstrap framework, especially the utility classes and custom components and custom utility
744         <div class="container" style="width:500px">
745             <table class="table table-bordered">
746                 <tr>
747                     <th>id</th>
748                     <th>latitude</th>
749                     <th>longitude</th>
750                     <th>type</th>
